“ One of the most diverse obituaries I've ever read. Deb is someone who personifies what it means to use your God-given talents to make the world a better place for others. She is a role model for all of us. Talking with her after mass one Sunday I got a sense that she was at peace with her journey. Not in the sense she was conceding defeat but that she accepted the path she was on and how it might inspire others. May we pick up that torch. Rest in peace. You gotta be tired but...

- There's a peace I've come to know
Though my heart and flesh may fail
There's an anchor for my soul
I can say "It is well"

Reading through this last night. Quite an amazing life coming from small town Iowa. Just goes to show it doesn't matter how a person starts, it is how a person finishes. The Masching's moved when I was younger. I remember them but didn't really get to know them. Family picnics the first weekend in June we would always see each other. I had to show my wife, Melissa the obituary as this is something you just don't see everyday. Deb truly became all she could be. How many people have accomplished what Deb accomplished? I am sure her family is unbelievably proud to call her mom, sister, and daughter. May God bless your family.
